#### SATELLITE CONFERENCE

We are pleasure to announce the satellite conference "*Ab-initio* Modeling of Advanced Materials (AMM-2019)", which will be held in Ekaterinburg in September 10–13, 2019. The conference AMM-2019 will focus on the recent progress in the development and application of *ab-initio* based methods of calculation and thermodynamic/kinetic modeling for microstructure and finite-temperature properties of a wide range of materials, from steel and alloys up to modern functional compounds. The special topics of this, already second AMM conference, will be problems related to magnetism and magnetic materials.

More detail information will be available on the web site of AMM-2019.
