During the trip you will have time to visit two continents of Europe-Asia at once. Currently, about 20 such obelisks have been preserved on the territory of the Urals, but the most famous among them is a memorial sign located in the 17th kilometer of the Moscow highway, installed in 2004. At the base of the monument are two stones, one of which was brought from Cape Dezhnev - the extreme point of the Asian continent, and the other - from Cape Roca, which is the extreme point of Europe. This is a marble pedestal with a small viewing platform, on which there is a metal sculpture with a sharp peak.

At the end of the tour you will be treated to champagne and the delivery of certificates of visiting the border.
